## Grontmij appoints Managing Director for Denmark

Grontmij has today announced the appointment of Søren Larsen as Managing Director of the company's Danish business. The consultancy is also in the process of making a number of senior appointments across the business to further align Grontmij to implement its recently announced strategy for 2010 – 2015.

### New Managing Director for Denmark

Søren Larsen (46), who joined Grontmij in Denmark in 1992, has held a number of positions within the company both nationally and internationally. The most recent of which was as the Business Unit Director of the Project Management and Building divisions.

Gert Dral, Group Director, Grontmij N.V. commented; "I am confident that Søren is the right person to lead Grontmij in Denmark towards additional growth and to implement Grontmij's new strategy for 2010-2015 which focuses on sustainable solutions to benefit both national and international customers,"

<ENDS>

### Notes to Editors

Grontmij is a leading sustainable design, engineering and management consultancy active in the growth markets of water, energy, transportation and sustainable planning and design. At the core of our business is the principle of sustainability by design which is a leading value proposition for our customers. Grontmij is the fourth largest design and management consultancy in Europe with over 150 offices across Europe and a further 20 offices globally. We employ over 8,000 professionals across the world.

Our value chain of services stretches from major renewable water and energy infrastructure through designing efficient and environmentally-sensitive mobility and transportation networks to shaping our urban and green living spaces.

Whilst we are approaching our 100<sup>th</sup> anniversary, and benefit from the experience nearly a century provides, we prefer to look to the future to enhance the world we live in. By applying sustainability considerations to all our design, consultancy and management services right across the value chain, our highly-skilled, expert people are able to create lasting solutions that plan for, connect and respect the future.
